Subject: FW: IARC classifies three more pesticides

This just in from the IARC Monographs . . .

Lindane: carcinogenic to humans (Group 1)

DDT: probably carcinogenic to humans (Group 2A)

2,4-D: possibly carcinogenic to humans (Group 2B)

Weihshueh chaired the mechanisms subgroup. IARC gets busy before summer vacation season.

Subject: IARC Monographs Vol 113, TLO article and press release

Dear All,

For your information, please find attached the TLO summary report (also accessible after free registration) and an IARC press release following the recent Monographs meeting.

We wish to take this opportunity to thank you for your continued interest in and support to the Monographs programme.

With best regards,

Helene
